PROFESSIONAL SUMMARY

With 2 years of experience building VR/AR applications using C# and the XR Interaction Toolkit. Pursuing an IoT certification at IPCS Global focused on PLCs, SCADA, and Industrial Automation. Skilled in hardware-software integration and embedding AI/ML inference (ONNX) within Unity; eager to apply these skills to Digital Twins, robotics middleware (ROS), and geospatial/BIM data workflows.

PROFESSIONAL EXPERIENCE

Unity XR Developer | Novac Immerz, Chennai | Aug 2024 – Jan 2026

- Developed immersive AR/VR training applications for Meta Quest 3.
- Optimized applications for standalone and mobile XR platforms.
- Collaborated using Git and Plastic SCM.
- Supported client deployments and installations.

EDUCATION & CERTIFICATION

IIoT Certification (Pursuing) – IPCS Global, Coimbatore

Topics: PLC, SCADA, Modbus RTU/TCP, OPC, Industrial Networking

M.Sc. Game Technology – ICAT Design and Media College, Bengaluru (2022–2024)

B.Sc. Computer Science – Dr. SNS Rajalakshmi College, Coimbatore (2019–2022)

PROJECTS

- Industrial IoT / Digital Twin Project – In Progress
- CPR Training VR – Meta Quest 3 | XR Interaction Toolkit | C#
- VR Industrial Tour – Performance Optimization
- Seal Assembly – PC Touchscreen | Team Project
- AR Visualization – Android | AR Foundation

TECHNICAL SKILLS

Programming: C#, Python, C++

Unity: Unity 2022+, XR Interaction Toolkit, AR Foundation, Unity Sentis

Industrial IoT: PLC Fundamentals, SCADA, Modbus RTU/TCP, Industrial Networking, Digital Twin Concepts

Tools: Git, Plastic SCM, Maya, Photoshop, Adobe Animate

Platforms: Meta Quest 3, Android, Windows, Web

AWARDS & ACHIEVEMENTS

- 3rd Place – AltWorld Game Jam 2023
- Promotion within 8 months at Novac
- Rising Star Award for Performance
